## Michael Simms

### Personas

**15 – 26 February 2023**

**Celebrating Sydney WorldPride in association with Flinders Lane Gallery**

'Personas' is a solo exhibition from award-winning queer artist Michael Simms. It features a series of paintings and drawings that use the human body to explore queer identity in the digital age.

Several works in 'Personas' explore the entanglement of technology with the human experience, commenting on digital reformation and the at-times suffocating impact it can have on identity.

Other pieces were created in response to the disorienting impacts of the pandemic, engaging with themes around human contact, disconnection and the body.
